SUMMARY

Computer Science engineer and Microsoft Certified Azure Data Engineer who ships production-grade software end to end — full-stack web platforms (React / Next.js and ASP.NET Core), 3D / WebGL applications, and secure REST APIs. Proven delivery of six real-world projects spanning web, fintech, networking, and data; strong in clean architecture, database design, and secure, deployable code within remote, collaborative teams.

TECHNICAL SKILLS

Languages: C#, JavaScript (ES6+), Python, C++, SQL

Frontend & 3D: React, Next.js 14, HTML5, CSS3, Three.js / WebGL, Responsive UI/UX

Backend & APIs: Node.js, Express, ASP.NET Core 8 (MVC), RESTful APIs, JWT & bcrypt Auth

Databases: MongoDB (Mongoose), SQL Server (Entity Framework Core), Schema Design

Cloud / DevOps / Networking: Azure, Docker, Git & GitHub, Cisco (VLANs, Routing, DHCP/HTTP/FTP), WebAssembly

Data & AI: Pandas, NumPy, Data Analysis & Visualization, ML Fundamentals, Statistics

EXPERIENCE

Web Developer — Arch Technologies (Remote)

Dec 2025 – Present

- Build and maintain responsive full-stack web applications for clients, owning both front-end interfaces and back-end logic.
- Ship clean, deployable solutions under Git-based collaborative workflows with strong code-quality and review standards.

Software Engineering Intern — Software Productivity Strategists, Inc. (SPS) (Remote)

Oct 2025 – Jan 2026

- Completed structured engineering training and delivered real-world productivity-software tasks using industry tools and agile practices.

Founder & Technology Blogger — BlogWithShafi (Remote)

Mar 2025 – Oct 2025

- Founded a tech publication; simplified Python, C++, and web topics and grew organic readership through on-page SEO and analytics.

KEY PROJECTS

- **Luxe Estate** | Next.js 14, React, Node/Express, MongoDB — Production-grade real-estate rental platform with JWT auth, real-time filtering, booking & concierge workflows, an admin dashboard, and automated email.
- **Faraz Autos** | Node.js, Express, MongoDB, JavaScript — Full-stack auto-parts e-commerce with dynamic catalogue, cart, wishlist, service booking, and a secured admin dashboard (JWT + bcrypt).
- **Cashup** | ASP.NET Core 8 (MVC), C#, EF Core, SQL Server, Docker — Digital-wallet / payments system supporting transfers, bill pay, deposits, and loans with MPIN security and an admin approval workflow.
- **NEXUS — 3D Traffic Simulator** | Three.js, WebAssembly (NASM / WAT) — Procedurally generated 3D city driven by a WebAssembly traffic-light engine, with a live HUD and emergency-vehicle mode.
- **Drone Mission Planner** | Three.js, WebGL, GLTF — Interactive 3D ground-control station for planning drone missions and trajectories over realistic terrain.
- **Country-Level Enterprise Network** | Cisco Packet Tracer — Multi-site network with VLAN segmentation (HR/Staff/Mgmt/Wireless), inter-VLAN routing, and DHCP/HTTP/FTP/Email services.

EDUCATION & CERTIFICATIONS

B.Sc. in Computer Science — Air University, Multan Campus

Sep 2024 – Aug 2028 (Expected)

CGPA: 3.71 / 4.00

Certifications: Microsoft Certified: Azure Data Engineer Associate · Arch Tech Professional Certification
